

ANTHROPOLOGY MAJORS NIGHT

WHY STUDY ANTHROPOLOGY?

Ever wondered where gestures like a thumbs-up came from?

Or why and how different languages evolved?

Or what's the meaning of Stonehenge?

Anthropology helps us answer these questions and more. It increases our understanding of the world, our place in it, and how we got here through a comprehensive and integrative study of topics like culture, society, and evolution.

HOW CAN ANTHROPOLOGY COMPLEMENT OTHER FIELDS OF STUDY?

The knowledge and skills you acquire by looking at the world through the lens of anthropology will give you a fresh perspective in any field, at the same time providing you with adequate inquiry to make anthropology your primary focus.
