

"My anthropology training at ND was the key to my success during my tenure at the Bill & Melinda Gates Foundation. It informed how I shaped scientific programs so that they could successfully move into the field testing and then scaled deployment."

Fil (Filippo) Randazzo
CEO and Founder of Leverage Science, LLC

Business Anthropology Cluster

Study Anthropology. Do Anything.

This research and teaching concentration focuses on the study of corporations, development, design, business media, global economics, transnational exchange, trade networks and the cultural dimensions of consumption. Pairing related programs such as the Business Economics minor and the Anthropology major provides powerful preparation for many cutting-edge careers in global business worlds.
