**Going global in health: “how shall
we know the way forward?”**

**November 4th 12:45-1:45 PM
DeBartolo 310**

There has recently been a surge of interest in global health opportunities, in which clinicians and students from wealthy countries spend time in the poorest parts of the world. Dr. Wendland will draw on her research at a large hospital in Malawi to examine some effects of this trend from the perspective of doctors and medical students in host countries.
